## About Me

I am a data-driven digital marketer with a Computer Science degree from BINUS University and an MBA in Marketing from Universitas Gadjah Mada, skilled at turning data into marketing decisions. Through ~100 freelance research analytics projects and RevoU's Digital Marketing Program, I have built hands-on experience in statistical analysis, Meta Ads, Google Ads, SEO, and CRM. In a live Meta Ads campaign, I identified and helped fix Meta Pixel and Google Tag Manager tracking issues, cutting cost per lead by about 69%. I am ready to drive data-backed growth for a performance or growth marketing team.

## Education

**Universitas Gadjah Mada** **Feb 2018 - Nov 2020**
Master of Business Administration (MBA), Marketing | GPA: 3.39/4.00

**BINUS University** **Sep 2012 - Jul 2017**
Bachelor's Degree (S.Kom), Computer Science

## Working Experiences

**Freelance Academic Research Analyst | Self-employed** **Jan 2023 - Present**

- Delivered ~100 academic research projects, from questionnaire data cleaning to final statistical analysis.
- Ran regression and SEM analysis in SPSS, SmartPLS, AMOS, and LISREL, including validity, reliability, and hypothesis testing.
- Translated complex statistical outputs into clear, actionable insights and reports for clients.

## Project Experiences

**Digital Marketing Group Projects – Kalaklin (Subscription Laundry Brand) | RevoU** **Jul 2026 - Sep 2026**

- Project Manager (Business Foundation): Led the team in defining Kalaklin's business concept, USP, and value proposition, and building its landing page.
- Performance Marketer (Meta Ads): Helped fix Meta Pixel and GTM tracking in a live IDR 500K campaign, cutting cost per lead from ~IDR 71K to ~IDR 22K.
- Technical Lead (Google Ads): Connected GTM, GA4, and Google Ads to set up conversion tracking for Traffic and Conversion campaigns, enabling go-live and the first tracked conversions.
